

KAREEM KAZEEM

Full-Stack Engineer | React · Laravel · Docker

Nigeria | +234 913 136 5111 | kareemkazeem100@gmail.com | github.com/Swiftly01

PROFESSIONAL SUMMARY

Full-stack engineer with 3+ years building production-grade web applications using React, Laravel, and modern DevOps practices. Experienced shipping multi-vendor marketplaces, subscription platforms, and school portals — from architecture through deployment. Strong track record of integrating third-party APIs, optimizing performance, and mentoring junior developers. Comfortable working with Docker-based workflows and CI/CD pipelines.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3, JavaScript (ES6+)

Backend: Laravel (PHP), Node.js, Express.js, REST APIs, MVC architecture

DevOps & Tooling: Docker, CI/CD pipelines, GitHub Actions, Vercel, Render, Git

Databases & APIs: MySQL, MongoDB, Stripe Payments, Postman

Laravel Expertise: Queues, Cron Jobs, Background Jobs, Eloquent ORM, Blade templating

EXPERIENCE

Web Development Instructor & Engineer — Techpro Institute Nigeria *Oct 2023 – Present*

- Spearheaded the full-stack development of techprong.com using Laravel, PHP, and React — integrating student, admin, and teacher portals into one unified system.
- Containerized development environments using Docker to streamline onboarding and ensure consistent local/production parity.
- Delivered hands-on curriculum covering React, Laravel, and modern deployment practices including Docker and CI/CD.
- Guided students in building production-level applications; mentored junior developers on code quality and architecture.

Web Developer — Ceresense Training Institute *Jul 2023 – Jun 2024*

- Co-developed Loopmart (loopmart.ng), a Laravel-powered multi-vendor e-commerce platform with React frontend components.
- Built responsive UIs using Tailwind CSS and Bootstrap; debugged and optimized frontend and backend code across the stack.
- Collaborated on backend Laravel architecture including API design and database optimization with MySQL.

KEY PROJECTS

Fricalearn — Subscription Learning Platform — <https://fricalearn.com>

A subscription-based portal for diaspora parents to enroll children in Yoruba, Hausa, and Igbo language courses. Built with full Docker-compatible deployment workflow, queues, cron jobs, and CI/CD pipeline.

Stack: Laravel, PHP, Docker, CI/CD, Queues, Stripe, MySQL, JavaScript

Loopmart — Multi-Vendor Marketplace — <https://loopmart.ng>

Full-stack multi-vendor marketplace with product listings, payment integration, and admin/vendor dashboards.

Stack: Laravel, React, Stripe, MySQL, Tailwind CSS

TechPro Institute Portal — <https://techproinstitute.com.au>

School management portal with course enrollment, geolocation-based pricing, and admin controls.

Stack: Laravel, HTML/CSS, JavaScript, MySQL

Natours — Tour Booking App — <https://natours-xy5e.onrender.com>

Full-stack tour booking platform with REST API and web interface, Stripe checkout, and cloud deployment.

Stack: *Node.js, Express.js, MongoDB, Stripe, Render*

The Wild Oasis — Hotel Dashboard — <https://the-wild-oasis-gilt-tau.vercel.app>

Admin dashboard for hotel management with real-time data, bookings, and cabin management.

Stack: *React, React Query, Styled Components, Supabase, Vercel*

Monarash Property — Real Estate Platform — <https://monarshproperty.com>

Real estate management app with buy/sell request flows and an advanced admin dashboard.

Stack: *Laravel, PHP, MySQL, JavaScript*

EDUCATION

B.Eng in Computer Engineering

Federal University Oye-Ekiti, Ekiti State, Nigeria
